DETAILED ACTION

1. This office action is in responsive to the amendment filed on May 18, 2005 and 11/17/2005. Claims 1-16, 18-21 remain pending with claim 18 being amended.

Allowable Subject Matter

2. The indicated allowability of claims 1, 2, 4-8 is withdrawn in view of the newly discovered reference(s) to Ozue et al (USPN 5,867,335). Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2, 4-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Ozue et al (USPN 5,867,335), hereafter as Ozue.

RE claim 1, Ozue discloses a method of data storage employing a tape cartridge having a cartridge memory (see column 1 lines 26-34 and column 2 lines 48-52), the method comprising: storing a cartridge stamp in the cartridge memory (see column 2 lines 46-55); and determining if the cartridge stamp has been updated (see column 2 lines 65-67 and column 3 lines 1-11).

RE claims 2, 4-8, Ozue discloses a method of data storage employing a tape cartridge having a cartridge memory (see column 1 lines 26-34 and column 2 lines 48-52), the method comprising: storing a cartridge stamp in the cartridge memory (see column 2 lines 46-55); performing a first reading of the cartridge stamp (see column 2 lines 65-67); performing a second reading of the cartridge stamp (see column 3 lines 1-4); and looking for a difference in the cartridge stamp between the first reading and the second reading (see column 3 lines 1-4; i.e., updating the difference of the informative data in first memory).

Allowable Subject Matter

5. Claims 3 and 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 10-21 are allowed.

7. The following is a statement of reasons for the indication of allowable subject matter:

Claims 3, 9 and 10-21 are allowable over the prior art of record because none of the prior art of record teaches or fairly suggests that storing a cartridge stamp in the cartridge memory, updating the set of label data stored in the cartridge memory, and then updating the cartridge stamp in response to updating the set of label data.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
